Description

Part .01

1. Violation:

In all vehicle traffic information records, some vehicles have violations, according to different types of violations for vehicles to add violation records.

2. Send email:

If the vehicle belongs to the system, the owner of the vehicle will be sent an email warning of the violation; if the vehicle does not belong to the system, only the violation record is stored and the owner will not be sent an email.

Tasks

(Part .02)

1 record vehicle violation

2 send email to vehicle owner (if the vehicle is in the system)

3 add pop-up windows to last week's tasks

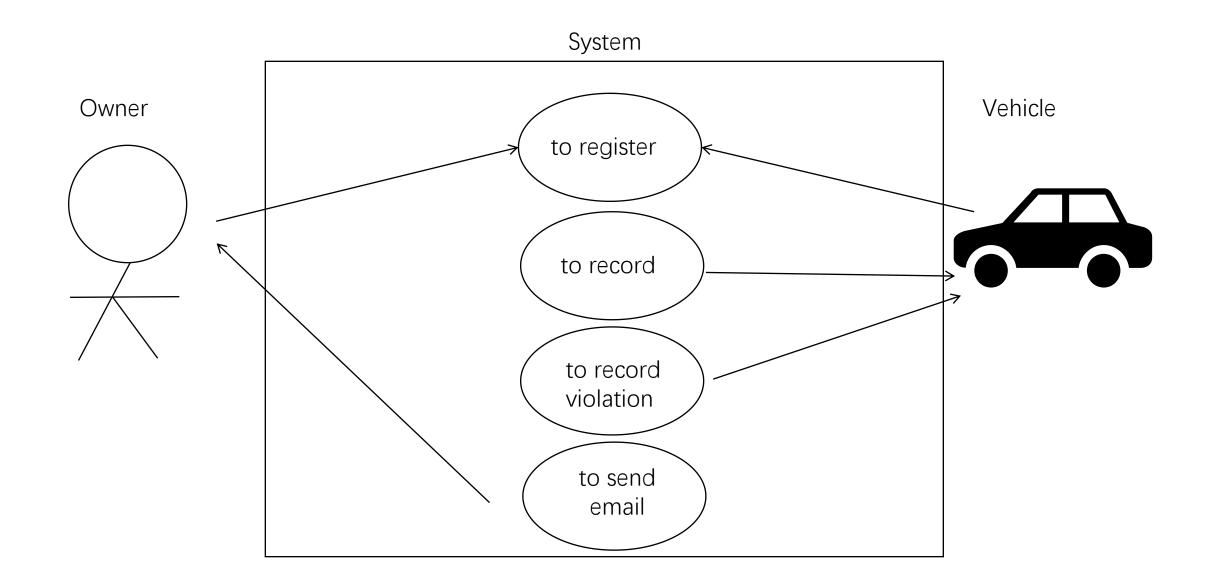

1-1 register owners and vehicles

1-2 recognition and record vehicle plates
